ADDENDUM 1

Request for Statement of Qualifications

Planning and Technical Services for the Groundwater Sustainability Plan Implementation and Reporting

October 8, 2020

This document is Addendum 1 to Santa Cruz Mid-County Groundwater Agency's **Request for Statement of Qualifications for Planning and Technical Services for the Groundwater Sustainability Plan Implementation and Reporting**. The addendum corrects three errors in the Request for Statement of Qualifications.

1. *On page 2, on the second line on the page "SGAM related planning", should read "SGMA related planning."*
2. *On page 3, the third to last line of the bullet under Section 2.2 "SGMA Technical Support", should read "seawater intrusion" instead of "sweater intrusion."*
3. *In Section 5, Exhibit A, page PSA 1, "Standard Agreement for Professional Services," Recital A, strike "perform stream monitoring and related services" and insert "perform planning, reporting, and technical services to support the implementation of the Groundwater Sustainability Plan in the Mid-County Groundwater Basin and related reporting to comply with the Sustainable Groundwater Management Act."*
